KAYAKING RIVER MAP

PRINTING 1950-1965
DRAWN & DESIGNED FROM U.S.G.S. MAPS BY WOLF & BAUER
SEATTLE

WEST & CENTRAL WASHINGTON RIVER-NAVIGATION KEY MAP

LEGEND

- KEY TOWNS
- DAM
- ▲ SETTING-IN POINT
- ② AVERAGE WATER FLOW (1000 SEC. FT.)
- COUNTY LINES
- FRESH WATER LAKES
- KAYAK-HAZARDED
- CLASSIFICATION

DIRECTION FOR USE

1. Select river, starting point, nearest town
2. Determine County for trip area
3. Use County map for river & access-road detail
4. Use sectional aeronautical charts for topographic features (Same Scale)

SCALE 1:500,000

0 10 20 30 MILES

CAUTION: LOG JAMS AND SNAGS APPEAR AND DISAPPEAR AND SHOULD BE WATCHED FOR AT ALL TIMES. RIVERS CHANGE WITH EACH FLOOD!

THE WASHINGTON KAYAK CLUB ADVISES:

Practice safety & caution at all times
 Never less than two boats on a river cruise
 You must know river or be led by one who does
 Be courteous & respect other people's property and fishing areas on the water
 A Kayaker is prepared, if necessary, to wade, portage, swim, repair his boat, help others
 Use this map to mark in color the river sections you have paddled, and add to it any vital features such as dams, bridges, falls, camps, setting-in points, etc.
